- 24/7 Coating Support
- One Stop Shopping for Coating & Supplies

**built Kompac tough for a long life**

# let kompac put you in the coating business

## FEATURES

**Solid State UV - Environmentally friendly**, solid state UV replaces outdated & potentially hazardous ballast / mercury relay systems used in curing UV coatings.

The infinitely variable bulb control allows the operator to make precise adjustments resulting in the perfect curing wattage every time, whether digital or offset output.

### Solid State UV

- Up to 200 watts / inch curing power
- Instant start-up
- Runs cooler
- Compact & light weight
- **Environmentally friendly - eliminates mercury** (except for a minute amount used in the bulb)

### “Patented” Kompac Shutter Technology

- Prevents over curing or damage to the web when the coating process is interrupted
- Maintains curing power while shutter is engaged
- Belt delay prevents wet coating from being applied to the roll

### “Patented” Kompac Coating System

- EZ On/Off Coating Controls (Reduces Coating Waste)
- Produces the highest gloss and a perfect finish every time
- EZ to clean and change coatings - With the patented “Kompac Vac” and our **environmentally friendly UV Klean**, coating change and clean up takes 5 minutes

## SPECIFICATIONS

Sheet Size:	14.5” width, virtually any length
UV Lamp:	Solid State - infinitely variable UV
Speed:	Up to 80 feet per minute
Stock Weight:	7pt. to 30pt.
Controls:	Adjustable speed & UV intensity
Weight:	400lbs.
Dimensions:	72” L x 29” W x 50” H
Electrical:	208-230/1Φ/50-60Hz/25amps

## PERFECT FOR

- Oki pro510DW Users
- Quick Printers
- In-Plant Printers
- On Demand Printers
- Small - Medium Offset Printers
