

# Daily on-time departures.

## Your anilox rolls in-stock, ready to ship.

Maybe someone dropped or scored an anilox roll. Maybe you landed a new customer with special print requirements. Or maybe it's just time to replace some oldies. Bottom line: you need a new anilox roll – fast. **How long should you have to wait for a new anilox roll?**

**“I need my anilox rolls! I want quality! Pronto!”**

At Apex, we feel your pain. That's why we developed **ReadyRoll**: the world's largest in-stock inventory of pre-coated, ready-to-engage anilox rolls. Right now, we have more than one thousand label/narrow web rolls in over 50 popular press sizes ready to engrave to your specs: **UltraCell**, **UltraCell+** or **GTT<sup>LABEL</sup>**.

**How fast?** How does five day (or less) delivery sound? And no extra service charges! Lightweight construction and stainless steel journals/bearings? High-density, non-wetting ceramic? UltraMelt laser engraving? They're all standard equipment. Quality and service? Only the best. **At Apex, that's just how we roll.**

## ReadyRoll

# ReadyRoll

NARROW-WEB ANILOX. IN STOCK RIGHT NOW.

When it comes to narrow web ink metering rolls, no one comes close to Apex for engraving precision, journal and base quality, roll durability, weight and — just as important — turnaround.

**FASTER TURNAROUND** Apex boasts the world's largest inventory with over a thousand pre-coated bases in popular sizes in stock and awaiting your order. Examine some of our standard stock items below.

**MORE DURABLE** Thanks to Apex's ceramic and laser engraving innovations coupled with our top-of-the-line stainless steel journals and headers, our **GTT<sup>L</sup>ABEL** and **UltraCell** rolls enable unrivaled longevity, precision and cleanability. What's more, every Apex roll is manufactured with a nickel corrosion barrier to maximize roll lifespan.

**LIGHTWEIGHT** Easier handling, installation and storage. Our rolls are up to 30% - 50% lighter than other rolls on the market.
