

SOLUTIONS FOR NARROW WEB PRINTERS

Integrated, user-friendly systems tailored for your application.

Leave it to Anderson & Vreeland to bring together state-of-the-art equipment, materials, software and support for narrow web prepress. We've assembled the finest plate processing equipment in the industry, complemented by printing plate materials from industry leaders that include Flint Group and Toyobo. We then provide support and a level of service second-to-none. Put our 60+ years of experience serving the flexo industry to work for you. We're committed to helping you make the best use of our equipment and materials, and your resources.

ThermoFlexX 20

Digital plate imager.

The ThermoFlexX 20 with its maximum plate size of 635 x 508 mm (25 x 20") is the perfect fit for the medium web segment. It's an excellent choice for ambitious label printers who want their own productive imager and to remain independent whilst making plates in the shortest possible time. ThermoFlexX 20 or ThermoFlexX 35 are an ideal size to fit easily into available space with realistic costs for plate processing equipment and digital workflow.

Orbital X

Water-wash system.

The Orbital X is a multi-function plate processor available in two sizes for water-wash plates up to 12"x 18" and 25" x 30". It is simple to use, versatile and ideal for crowded working areas. This stack-style processor features an orbital washout, exposure section, a three-drawer dryer and optional detach section. Components are easily accessed from the front. Features include a stainless-steel washout section to prevent corrosion, a dual orbital-action platen for efficient washout, digital timers for accurate washout and exposure, vacuum pump and electronic solid-state ballasts. A thermostat controlled three-drawer dryer uses forced hot air for efficient plate drying.

Cosmolight®/Printight®

Water-wash plates.

Cosmolight® delivers superior performance for label and tag printers using water-based ink, as well as solvent-based and UV-inks. This revolutionary plate washes out in plain tap water with a mild, neutral detergent, eliminating the use of environmentally damaging washout solvents. **Printight®** is a water-soluble, nylon polymer relief printing plate designed for dry offset and letterpress. Printight® offers excellent ink acceptance and transfer, sharp half-tone resolution and extremely long press life.

When you buy from Anderson & Vreeland it is the beginning of a relationship, not just a transaction.

Our products for narrow web are designed to work together seamlessly. However, if questions arise, our Technical Support Team will assist you. You can call toll-free or e-mail us for a fast response. We are with you every step of the way.

If training is required, A&V offers programs designed for every level of experience. Take advantage of this training at your location, our location or online with A&V's seasoned personnel.

For over 60 years, A&V has been on the cutting edge of emerging technologies. A&V continues this tradition by introducing new equipment, materials and support for in-the-round digital imaging. Ask your A&V technical representative how you can benefit by this new technology.
